Designing with Flying Colors

Are you stuck in a color rut? Or are you afraid that you might make a color “mistake” in your quilts? In this workshop students will try out new color combinations as well as learn how to use color placement as a major design element in their quilts.

Supply List

Ten, 5”x5” squares of different fabrics

What if you only have 10” square laying around? Bring those, no need to cut more fabric, we just need a variety of textures and colors to work with. Don’t stress about your fabric choices – just grab fabrics that are handy!
